# FOOD

<https://naturaldogfood.dk/vare-kategori/rawfood-til-hund-og-kat/bellas-favorit-barf/>

I have attached a link for the Natural Dog Food Shop. The two main brands of raw food they sell is Bella's Favourite & Rigtig Hundemad. Bella's Favourite Barf is a better option for beginners as it is mess free and easier to store!

<https://maetpets.com>

Subscription based food for your dog. My favourite is the deli over the risotto sausages. It is a great option for dogs that are sensitive to raw food but you still want to give your dog a fresh diet.

# TREATS & CHEWS

<https://hunnishop.com/produkt/bunni-bites-kaninoerer-med-pels/>

This is a great chew for all sizes and ages. The chew time varies -  
Pisco eats it in 30 seconds. Blue eats it in five minutes.

<https://perspetshop.dk/vare/rauh-belly-bone-til-m-1-hund/?v=dd65ef9a5579>

This is a chew appropriate for 15+ kilos. It is a long lasting chew and great option for leaving dogs home alone.

<https://hunnishop.com/produkt/ducky-sticks-toerrede-andehalse-250-gram/>

Duck neck is a chew appropriate for 5+ kilo dogs. It is also great for picky dogs.

# TREATS & CHEWS

<https://perspetshop.dk/vare/tyre-muskel-torret-20-cm-tyrepenis/?v=dd65ef9a5579>

This chew lasts approximately 30+ minutes and is appropriate for dogs 10+ kilos.

<https://hunnishop.com/produkt/ox-crunchies/>

Anyone who owns a brachycephalic breed of dog knows the fear when they give their dog a chew and they are struggling to eat it. This is a great option for brachycephalic breeds as it can break apart. This chew is appropriate for dogs that are over 7-10 kilos and the chew time is over 5 minutes.

<https://hunnishop.com/produkt/chewy-ox-lobes-oksepandelapper-med-lang-tyggetid/>

This chew is appropriate for dogs 10+ kilos and the chew time is over 10 minutes.

# TOYS

<https://perspetshop.dk/vare/starmark-foam-ball-med-reb-faaes-i-2-stoerrelser-flyver-langt-er-let-for-dig-at-kaste-og-let-for-din-hund-at-hente/?v=dd65ef9a5579>

This foam ball cannot be ripped or chewed apart. I will only ever recommend toys that have a tug so you can actually interact with the dog whilst playing.

<https://jamiestoys.dk/vare-kategori/total-pels/>

I love tug toys that have a soft ending rather than a ball because it makes even the least of toy motivated dogs interested.

<https://perspetshop.dk/vare/bionic-toss-n-tug-225cm-interaktiv-to-i-en-legetoj/?v=dd65ef9a5579>

This frisbee gives every dog a great grip and will not break! You are also able to throw it very far.

# ACTIVITY TOYS

<https://perspetshop.dk/vare/hundeskaal-lickimat-ufo-groen/?v=dd65ef9a5579>

I love the lickimat UFO design as it allows me to layer all sorts of wet food without the risk of spilling and keeping it mess-free. It's great to freeze and is dishwasher friendly. It also has suction cups.

<https://perspetshop.dk/vare/lickimat-wobble-hunde-og-katteskaal-i-forskellige-farver-165-cm/?v=dd65ef9a5579>

I like the lickimat wobbl design as it really challenges your dog whilst they're eating their food.

I love the Snoop because it doesn't make a sound when the dog is playing with it on the floor. It is dishwasher friendly and a great option for dogs that eat kibble.

# **COLLARS, LEASHES, HARNESSES, SLIP COLLARS, TREAT POUCH**

<https://paceandbeyond.com/products/discover-long-line>

It is so worth buying this long line with the attacher to keep it tangle free and organised!

<https://perspetshop.dk/vare/alac-line-antiglid-sort-20-mmx300-cm/?v=dd65ef9a5579>

When walking your dog on a slip leash, it is super important that you've got a leash that allows you to have good grip whilst using little force. This is my favourite leash.

<https://thetrainerspouch.com/collections/rest-of-the-world>

The best treat pouch. Appropriate for all types of food: raw, canned, dry etc. Dishwasher friendly.
